

## Individual Reflection week 3. Irene Cánovas Vidal.

### **WHAT DO I WANT TO LEARN OR UNDERSTAND BETTER?**

Now I find it a bit difficult to understand my colleagues because of the language. I find it difficult to follow long and complex conversations but little by little I am trying to ask everything I don't understand without slowing down the group.

### **HOW CAN I HELP SOMEONE ELSE, OR THE ENTIRE TEAM, TO LEARN SOMETHING NEW?**

I can bring programming skills to my team and will try to help with any problems that may arise. I will also try to contribute the knowledge acquired during my apprenticeship in Data Science.

### **WHAT IS MY CONTRIBUTION TOWARDS THE TEAM'S USE OF SCRUM?**

In the group we try to review and supervise each other's work.

### **WHAT IS MY CONTRIBUTION TOWARDS THE TEAM'S DELIVERIES?**

This week I have been working on some sections of the canvas model and trying to learn about Kotlin.
