

Personal Reflection - Week 7

- *What do I want to learn or understand better?* Like in the previous report, I'm learning how to work on the UI so that I can contribute fully to completing what is left in the project.
- *How can I help someone else, or the entire team, to learn something new?* I can help with teaching others what I am learning through working on the UI.
- *What is my contribution towards the team's use of Scrum?* Along with what I mentioned previously, I am working hard on as many tasks as I can to get them done in the sprint.
- *What is my contribution towards the team's deliveries?* I'm working on the main page for the app both in design and functionality.
